

We believe that every person with disabilities is also a person with abilities. Our goal is to teach these young people to cope successfully with their disabilities and develop their abilities to full potential.

Without projects like *Eagle's Nest*, there are no educational or training opportunities in China for young people with disabilities.

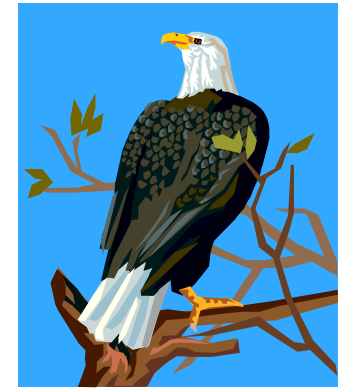

“For surely I know the plans I have for you ... plans for your welfare and not for harm, to give you a future with hope.”

– Jeremiah 29:11

Hope For The Future

Hope for the Future

Helping disabled teenagers and young adults reach their potential.

TRAINING IN DAILY LIFE SKILLS

We train young people with disabilities to be as independent as possible in the ordinary tasks of everyday life.

- Bathing, dressing, and grooming
- Shopping for food and necessities
- Cooking meals
- Cleaning house
- Washing clothes

TRAINING IN ACADEMIC SKILLS

We teach the basic skills that are needed in everyday life, such as counting, buying, telling time, and understanding signs. Students who are able are given lessons in reading, writing, math, and Chinese history and culture.

TRAINING IN WORK SKILLS

All the young people are taught to follow directions, work with others, and always do their best.

After the students' abilities and interests are matched with local job opportunities, they will be taught specific job skills and placed in a work site. Further training in the workplace will be provided as needed.

TRAINING IN SOCIAL SKILLS

We teach and expect all the young people to practice basic good manners, kindness, and honesty. We want them to develop positive relationships with people in the home, workplace, and community.

Eagle's Nest

is a project of *Caring For China*, a registered 501 © (3) charitable nonprofit corporation in the USA.
