

HEALTH FOR CHINA

Harvest Time

It's the harvest time in China, reminding us of the words in the Book: The harvest is plentiful, but the laborers are few.

Please keep our urgent need for recruiting a long-term overseas international communicator in your thoughts

DR. Grace contributes to village doctors' training

- Dr. Grace from Australia who works with another organization here in China. Currently, she is actively involved in our training program.
- She has lovely heart to help people.

Village Training

Dr. Lohse, an American neurosurgeon visited our work and kindly gave a lecture to the village doctors.

Old Friends

Do you remember Mann-ya who visited HSC in early 2004. She recently came back to China for a holiday.

It is always a joy to meet our old friends again.

Old Friends

- Enna, a doctor from Brazil, who worked here in 2004, came to visit us as well.
- She presented consultation for orphans and the community people who are in need.
- She was actively involved in the village doctors' training project and used her experience for making training plans here.

Learning

The village doctors are eager to learn new techniques and skills. They make notes very carefully and try to remember everything the trainer has taught.

The village clinic

Most of the village clinics are located in their own home and the facilities are very limited. They need a small refrigerators for storing the vaccines safely.

Cerebral Palsy Programme

- The Cerebral Palsy programme is making very encouraging progress.
- The parents of children have followed the tasks which we gave them, & some children like HongEn_(right) and QuJiang_(left) show significant improvement.

Thanks

- Every month, deeply in our hearts, we give a lot of thanks to our Father.

And we give thanks for:

- People: pray for us
- People: come to help us
- People: financially support us
- People: donate equipment to us.

HSC staff thank you for your ongoing support

Current needs:

- An overseas full-time general practitioner (as well as short-term doctors) to provide consistent and continuous medical care for our children and community .
- A permanent International Communications Officer to liaise with overseas teams, visitors and others doing Healthcare work.

HSC staff thank you for your ongoing support

Current needs:

- Short-term overseas medical professional and health workers to provide training and health education for rural village doctors and villagers
- More financial support so that we can expand our services to reach more people who need medical intervention in Chinese communities.
