

# *Health For China*

Update of October

# Give thanks

We give our heartfelt thanks to Father for His caring and consideration of our needs everyday. And special thanks for your prayers for us as well.

Laurie from NZ takes another step of Faith and will work with Healthcare as our International Communicator early next year.

An Australian couple, both of whom are GP's, with two children, will work in Healthcare next year.

Laurie and his Wife

# Departmental Day

Dr May, in behalf of Healthcare shared about the current work and future vision. All the members were very impressed with the development of Healthcare and gave thanks to Him. We strongly believe that it is very important for Managers and Members to have fellowship together so we can support each other in different ways.

# Great Celebration

On the 11th Oct,  
2007 SS celebrated  
its 10 years  
anniversary of its  
orphanage work and  
Dr May, on behalf of  
Healthcare,  
presented a gift to  
SSh staff to  
acknowledge their  
hard work.

# DR Chris and Mary

Our old friends Dr. Chris and Mary from UK. came to visit us in Xian. We have always been impressed by their loving and mission hearts for people. During their recent visit, they provided medical services for overseas people, Chinese people, and children in the SS Centre.

# DR Chris and Mary

- Dr. Chris was also actively involved in our rural development program and gave a lecture to 40 village doctors in the countryside.
- Mary presented a Proper-Hygiene lecture and held teaching activities for more than eighty school students, which will help improve their quality of life during their childhood.

# Thanks DR Kim

- Dr. Kim from Aus who came earlier this year visited us again in Oct. Her focus was on Women's Health Education. We really appreciated her involvement which assisted us to improve our Women's Health Services.

Healthcare would sincerely like to thank those generous people who contributed financially to enable us to provide influenza vaccinations for children in the Childcare Centres. By the end of the month, we had completed the flu shots for every child.

A Cerebral Palsy Parent's Clinic was held on 20th Oct. We were very pleased that Hong En's mother was able to share with other parents about her experiences and the strength she receives from above. Yaoyao's mother was so upset when she first come, but by the time the clinic had finished, we could see a smile in her face. Thanks G, He is the real comfort for people. Steve has made great progress and is able to stand upright with a little support. We really need a standing frame for him to use. Please keep this matter in your mind for future provision.

# Welcome our Friend

Quinn's friend's visited Healthcare in Oct. They are both medical professional people and are actively involved in medical missions. Even though it is the first time we had met them we easily became like old friends.

## Healthcare thanks you for your faithful support by:

- ↗ Praying for our work
- ↗ Visiting and helping to develop the Rural Health work
- ↗ Encouraging our staff by His words
- ↗ Financially supporting

## Urgently Needs:

- ↗ Local nursing staff who have a compassion heart for children
- ↗ An overseas physical therapist who is a like-minded person, willing to develop ways to approach people in the community and to work together with local staff.
- ↗ A standing frame for little Steve.
